TACK MAT®
Bacteriostatic Mats

Especialistas en Esterilización y Envase

A MEMBER OF THE STERIMED GROUP

Mats surface has an adhesive layer which contains an antimicrobial substance. Tack Mat catch dirt and dust from shoes or equipment wheels, reducing contamination before entering to clean roams or medical areas such as: surgical rooms, special manufacturing spaces, food producing areas, Central Sterile Services Department, emergency roams, isolation rooms, etc.

Tack Mats are easy to use. By removing the dirty sheet, you will find immediately a new one. Each layer has a flap printed with the number of the sheet, which facilitate taking it off and help us to know how many sheets we still have available.

Each of its sheets is impregnated with SUPERANTI®, which is a broad-spectrum agent that provides antimicrobial and fungicidal properties that help inhibit the growth of the fungus on the mat.

Catalog	Size (in)	Color	Sheets	Units per Box
TACK120	18" x 46"	Blue	20	8
TACK130			30	
TACK220		White	20	
TACK230			30
